
PAPR SYSTEMS

Breathe easy. Better welding protection is here.

ALLEGRO | WALTER

PAPR SYTEMS
GRINDING AND WELDING

Every work environment is different. That's why WALTER offers the most comprehensive line of PAPR systems in the market. There are several headtops to choose from and build the perfect PAPR system to meet your job site needs.

WELDING PERFORMANCE

COMPATIBLE WITH WALTER AIRPLUS® BLOWER

FILTER TYPE:

High-Efficiency Particulate Air filter (HEPA) for EZ AIR and AIRPLUS® will protect against:

- ***Hazardous solid dust particles, metal fumes, and mists***
- ***Stainless steel (hexavalent chromium), galvanized steel (Zinc oxide), steel/ manganese alloys, cadmium, and lead fumes***

AIRPLUS® COMPONENT	TYPICAL REPLACEMENT CADENCE	NOTES
Pre-filter	Once a week	Regular replacement of the pre-filter extends the life of the HE particulate filter, saving on consumable costs.
HEPA P3 Filter	At least every month	Do daily checks with airflow indicator and replace when airflow indicator falls below the minimum flow line.
Spark Arrestor	As needed	Replace if deformed and no longer fitting well.

HEAVY-DUTY GRINDING AND WELDING

For heavy-duty grinding, welding, and high-altitude work where clean air and endurance matter most, the PEAKAIR™ PAPR system has you covered. Compatible with four versatile headtops, the system adapts to your needs. The DEFENDER™ models feature integrated hard hats for added protection, eliminating the need to layer additional headgear. This saves time, reduces bulk, and ensures ANSI and CSA compliance without compromise. The MAXSHIELD™ models are ideal when a hard hat isn't required, offering a lightweight, wide-view design that keeps workers comfortable, reduces bulk, and delivers the same high level of respiratory protection.

HEAVY-DUTY GRINDING & WELDING

COMPATIBLE WITH WALTER PEAKAIR™ BLOWER

NEW

The PEAKAIR™ battery-powered blower is designed and optimized for high-altitude environments up to 8,500 ft

- ▷ ***Optimized blower speed for thin air***
- ▷ ***Intelligent sensors automatically adjust airflow***
- ▷ ***USB-C rechargeable battery fully charges in 4 hours and provides up to 14 hours of runtime on low speed***

AP-FIL-06-4

FILTER TYPE:

High-Efficiency Particulate Air Filter (HEPA) for PEAKAIR™ protects against:

- ▷ ***All types of particulates such as hazardous dust particles, metal fumes and mists, as well as hexavalent chromium, zinc oxide and lead fumes***
- ▷ ***The filter separates 99.997% of the pollution in the air***

PEAKAIR™ COMPONENT	TYPICAL REPLACEMENT CADENCE	NOTES
Pre-filter	Once a week	Extend the life of the HEPA filter by capturing larger particles that clog the filter.
HE Filter	At least every month	Easily removable parts allow simple cleaning, maintenance and replacement.
Spark Arrestor	As needed	Helps prevent sparks and other hot particles from damaging the HEPA filter.

PAPR SYSTEMS
HEAVY-DUTY GRINDING AND WELDING

When it comes to exposure to hazardous fumes and particles, respiratory safety should be every worker's priority. A Powered Air-Purifying Respirator (PAPR) system can protect metalworkers and welders by filtering out dangerous particles. These units provide higher levels of respiratory protection compared to half-face respirators or disposable masks.

Features

- ***High-altitude capacity up to 8500 ft***
- ***High-capacity battery allows up to two full work shifts; reduces downtime***
- ***Full charge in 4 hours***
- ***3-phase alarm system for increased user awareness***
- ***Flexible breathing tube reduces torque on neck and increases mobility***

PEAKAIR™ blower model also includes a spark arrestor and pre-filter

HIGH ALTITUDE SYSTEM SPECIFICATIONS

Blower Unit	
Type	Flow Control with Altitude Sensor
Motor speed	6,000-10,000 RPM
Air supply (min/max)	170 LPM/260 LPM (6/9.5 CFM)
Case	Impact-Proof ABS
Filter cartridge	Single plug-in
Filter	HEPA
Expandable breathing tube	31.5 in to 63 in
Pre-filter	Yes
Spark arrestor	Yes

Battery	
Type	Lithium-ion
Voltage	7.4 V
Operating time	14 hours at minimum fan speed
Charging time	4 hours
Charging cycles	500

Charger	
Type	DC rectifier
Voltage	120 V / 60 Hz
Output current	8.4 V, 1500 mA
Approvals	UL

PAPR SYSTEMS
HEAVY-DUTY GRINDING AND WELDING

Our extensive line of accessible grinding and welding respiratory products provide workers with better comfort, less fatigue, and improved productivity. The WALTER PEAKAIR™ PAPR systems are intended for heavy-duty applications, hard hat requirements, chemical fumes, and high-altitude environments. All WALTER models also come with a spark arrestor and pre-filter for added safety.
