Ultra Elite® Positive Pressure Full-Face Masks

Each configuration of NIOSH approved equipment is identified by a unique NIOSH approval number. The various configurations are detailed on the NIOSH Approval Label (matrix form). The Ultra Elite® Positive Pressure Full-Face Masks are included as components of these configurations. These components may be listed by individual part numbers or grouped by acceptable alternative assemblies.

Example:

The NIOSH Approval Label, for the Premaire Cadet Escape, lists models/drawings:

7-935-1	Ultra Elite, Non-NFPA, Med	Alternate Facepiece
7-935-2	Ultra Elite, Non-NFPA, Small	
7-935-1	Ultra Elite, Non-NFPA, Large	

These model/drawing numbers list the various approved Assembly/Part Numbers.

The Assembly Numbers are listed under “View Part Numbers” on the webpage. Refer to the NIOSH Approval Insert for a listing of approved configurations.
