Green floor pads Economy Line

For scrubbing or stripping operations

Technical data sheet

Description:
The Green floor Pad Economy Line is a floor maintenance pad, made of synthetic fibers, in an open textured non-woven construction. Cleaning particles are dispersed throughout and bonded with resin.
Each floor pad has a pre-cut center hole.

Special Features:

- Medium aggressive pad to remove marks and soil.
- Open web construction to collect soil from floors.
- Flexible pad for better conformability to the floors and easier washing after use.

Where and When to Use:

RPM	150-400	400-1200
Strip	X	
Scrub	XX	
Spray / Daily		
Buff		

XX Designed for X suitable

Recommendation is to use the Green Floor Pad Economy Line for regular maintenance of unprotected floors under a scrubber dryer. It is also used with a swing machine for scrubbing of heavily soiled floors. It is also recommended for partial stripping of floors (scrub & recoat).

Directions for Use:

Regular cleaning under scrubber-dryer
1. Install a clean floor pad under the machine driving plate.
2. Scrub the desired area and vacuum with scrubber dryer.
3. Remove pad and wash after use.

Scrub & Recoat operation
1. Install a clean floor pad under the machine driving plate.
2. Scrub the protected area with few passes in order to remove part of the protected layers (damaged layers).
3. Remove pad and wash after use. Do not let the dirt dry on the floor pad.
4. Rinse and let the surface dry.
5. Apply one or several brand new layers of protection.

Maintenance of pad:
1. Remove pad from machine after each use
2. Scrub both sides of pad with the center hole or with a nylon brush under tap water or spray hose both sides.
3. Hang up for drying. Let it dry.

Product Specifications:
The Green Floor Pads Economy Line consist of polyester and nylon fibers, mineral particles and synthetic resin. They are not significantly affected by water, detergents and cleaners normally used for floor maintenance.

Product Characteristics (typical values):

Color:	Green
Marking:	None
Thickness:	25.0mm (typical)
Center hole:	Pre-cut at 85 mm
Fiber type:	Polyester and Nylon

Packaging and labeling:
Packaging material made of 100% recycled material. Product name and size indicated on each case.

Disposal Information:
Discard into appropriate container, for incineration, if available.
Packaging material: recyclable

Origin:
Made in France, ISO 9002 certified plant.
