# Safety and Industrial Products

Safety where you want it, when you need it.

# 90 Years of Innovation

**"Do what you love to do."** Based on this statement, August Bremicker took the chance to start his own business in the small town of Volmarstein, Germany in 1924. With the vision to create products that protect peoples' lives and their belongings, the production of the first padlocks started in the cellar of the family home. Today, a globally acting company group has emerged from the family enterprise.

Tireless efforts, richness of ideas, know-how in development, manufacturing and sales are the cornerstone of the success of the family business which today is led by the third and fourth generation.

The basis of ABUS's security competence lies in the comprehensiveness of their product offering for security across multiple platforms. This program has already been expanded by the Recreational Security division which focuses on products for bikes, motorbikes, marine products, etc. and is further expanded by sister companies ABUS Security-Center, focusing on electronic security, ABUS Pfaffenhain, manufacturing high-security cylinders, and ABUS Seccor, specializing in electronic access control.

For years, ABUS focused on bringing security to many different applications across the globe. With an increase in industrialization in the U.S., ABUS identified a new need for security solutions in the form of safety lockout. In 2005, ABUS produced its first padlock specifically designed for safety applications.

Over the next decade, ABUS continued to learn more about the safety lockout business and the need for safety solutions in so many different places all over the world. With the implementation of regulations and rules related to safety in the workplace, ABUS sought out to develop a comprehensive safety program and, in 2014, launched a full line of safety lockout devices to complement its offering of safety padlocks.

With security solutions that are more and more interconnected, we react to the rising expectations of our customers. Our main focus is the brand quality of ABUS. That means, to work in a team as a worldwide brand manufacturer and to set the same benchmarks no matter where in the world we operate.

**1949:** ABUS presents the first Diskus® padlock at the 25th company anniversary.

**1924:** August Bremicker founded ABUS and started the production of padlocks, hasps and staples.

**1961:** ABUS begins manufacturing door cylinders.

**1984:** The ABUS security door puts security technology on the map. Gradually this door is used by security companies across Germany.

**2014:** ABUS expands the safety offering by launching a full line of lockout/tagout devices.

1924 — 1950 — 1980 — 2000 — 2015

**1938:** The young company reaches roughly 300 employees for the first time.

**1958:** ABUS is the first company to introduce brass padlocks to the market.

**2005:** ABUS enters the lockout/tagout market with a line of safety padlocks.

**1947:** After WWII, production resumed with about 70 employees.

**2001:** ABUS enters the surveillance and alarm technology industry.

# Lockout/Tagout

Lockout/Tagout procedures are designed to prevent accidents and injuries caused by the unexpected release of energy when equipment is being repaired or maintained.

## Regulations

The Occupational Safety and Health Administration (OSHA) regulates lockout/tagout through the Control of Hazardous Energy Standard found at 29 CFR 1910.147. This standard mandates training, audits and record-keeping to ensure that workers will not be injured by unintentionally energized equipment.

## What is Lockout/Tagout

Lockout is the process of preventing the flow of energy from a power source to a piece of equipment and keeping it from operating.

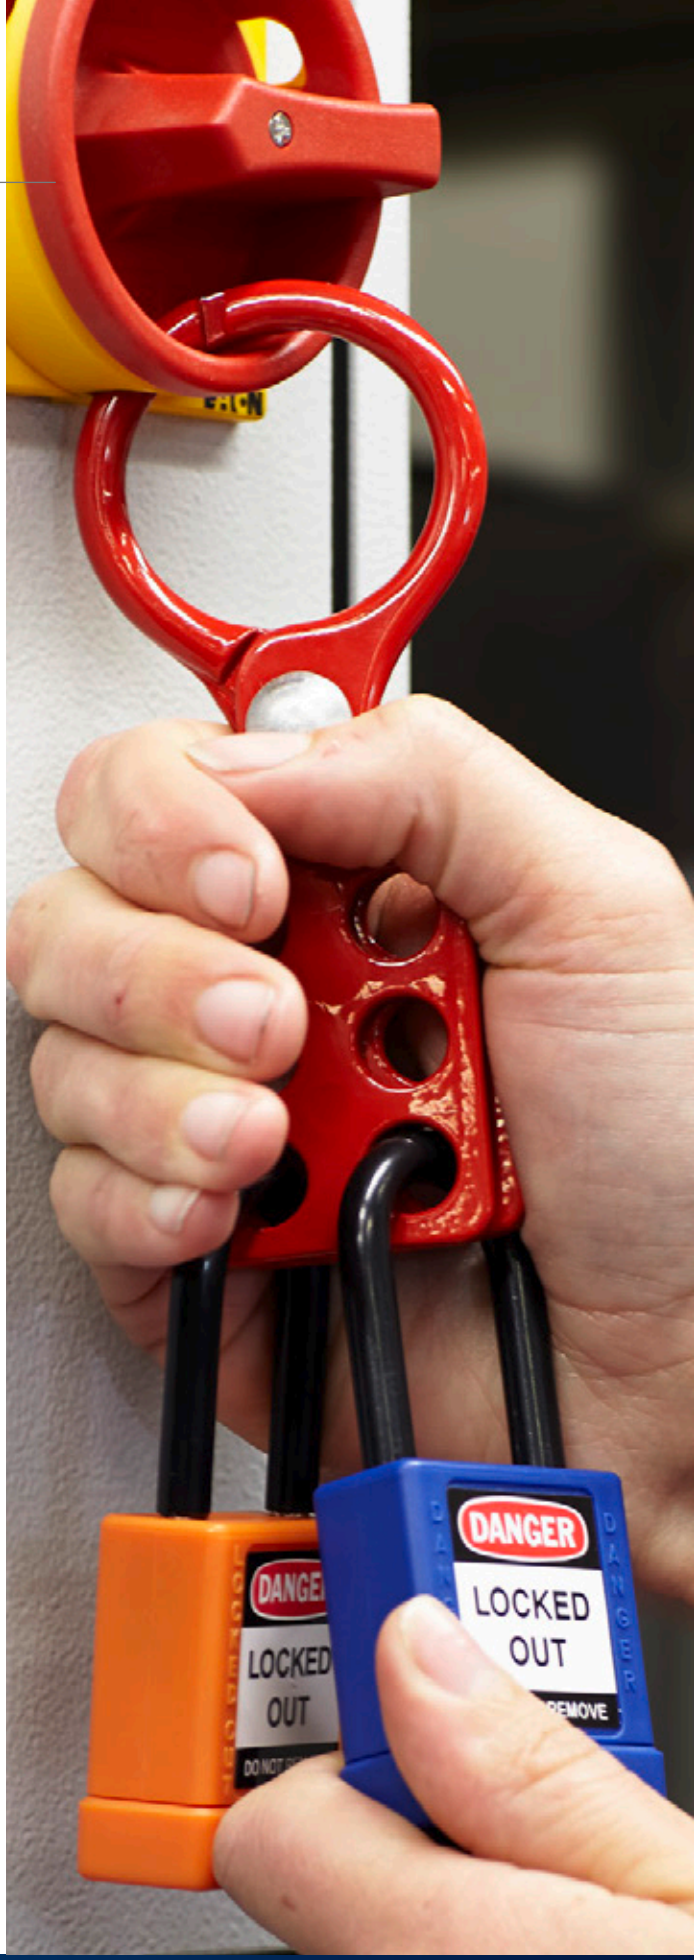

Lockout is accomplished by installing a lockout device at the power source so that the equipment powered by that source cannot be operated. A lockout device is a lock, block, cable or chain that keeps a switch, valve or lever in the off position.

Safety locks are provided and can be used only for lockout purposes. The locks should never be used to lock tool boxes, storage sheds or other items.

Tagout is accomplished by placing a tag on the power source. The tag acts as a warning not to restore energy, not as a physical restraint. Tags must clearly state "Do Not Operate" or the like, and must be applied by hand.

## What Must Be Locked or Tagged Out

The lockout/tagout standard covers servicing and maintenance of equipment where unexpected energization or start-up of equipment could harm employees.

# Safety Padlocks

## Non-Conductive 74 Series

- Lightweight, plastic-coated body and shackle help prevent electrocution, arc flashing and electrical current from shackle to key
- Under the plastic casing, the NANO PROTECT™-coated steel shackle and aluminum lock body are corrosion and chemical resistant
- Non-magnetic, non-sparking and dielectric
- FDA-approved lubricant - ideal for the food industry
- LOTO labels in English, Spanish and French included
- Meets OSHA lockout/tagout guidelines
- Comes key-retaining and is available keyed-different, keyed-alike or master-keyed

VALIDATED
• 74-40 SERIES LOCKS CONTAIN A MINIMUM OF 70% RECYCLED CONTENT

## Aluminum 72 Series

- Lightweight, anodized aluminum lock body offers superior chemical and corrosion resistance and is ideal for laser engraving
- NANO PROTECT™-coated hardened steel shackle provides superior corrosion resistance and is available in multiple shackle heights
- FDA-approved lubricant - ideal for the food industry
- Meets OSHA lockout/tagout guidelines
- Available keyed-different, keyed-alike or master-keyed

## Laminated Steel 41 Series

- 5-pin cylinder offers high number of key differs
- Steel shackle and body plates are individually coated with ETERNA™ plating for rust protection
- Vinyl bumper provides easy identification and protection
- Made from high-quality recycled steel
- FDA-approved lubricant - ideal for the food industry
- Meets OSHA lockout/tagout guidelines
- Available keyed-different, keyed-alike or master-keyed

ABUS Security Tech Germany

## Laser Engraving

ABUS offers custom laser engraving on all Safety Series padlocks. Laser engraving is a great way to customize padlocks in the safety industry, providing quick and easy identification.

Area 1 front | Area 2 right | Area 3 back | Area 4 left

Please note: Engraving on bottom of lock is not available.

## Lockout Labels

ABUS carries a variety of lockout labels, available in three languages. Lockout labels can be personalized with a permanent marker, helping to easily identify the owner of each padlock. Customizable colored labels provide easy identification for non-safety padlocks.

## Weatherproof Cap

- Rubberized cap fits on the bottom of 72 Series padlocks
- Durable weather cover with drainage system
- Protects lock cylinder from water, ice, dirt and grime

## PS-88 Lock Lubricant

- Recommended for maintaining all ABUS padlocks
- Loosens rusty screws, bolts, nuts and valves
- Eliminates squeaking of doors, windows and drawers
- Provides corrosion resistance against salt, water or humidity
- Prevents freezing up of door and car locks
- Usable as contact spray for electrics and electronics

## High-Security Chain

- Chain made from hardened steel
- Top security against all types of aggressive attacks
- Fabric sleeve prevents surroundings from damage
- Custom chain lengths come shipped in barrels
- Loop chain comes with a larger loop on one end, making the chain go further

# Keying Systems

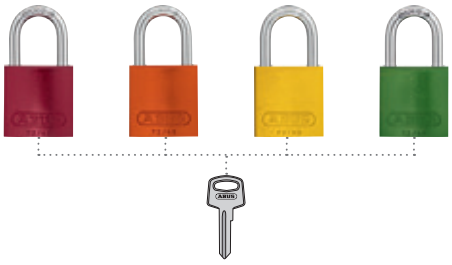

The more machines there are that have to be locked out, the more different keys are needed. But a large number of keys and a confusing key administration are not necessary. Modern keying systems by ABUS are the solution.

A locking system is a combination of different locking cylinders that have a certain relation to each other. Depending on what is needed, the functionalities of the cylinder can be bundled and exactly assigned. Within a locking system there are single keys, master keys and grand master keys – this makes it possible to distribute certain access rights among different employees.

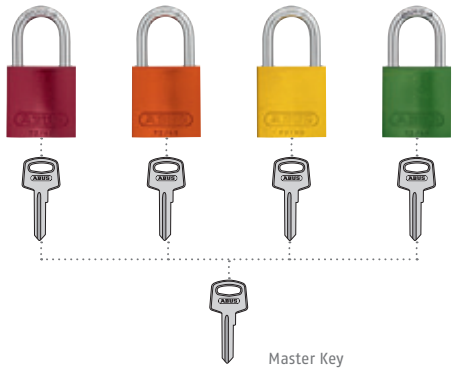

**Keyed Different:**

Each padlock has its own unique key.

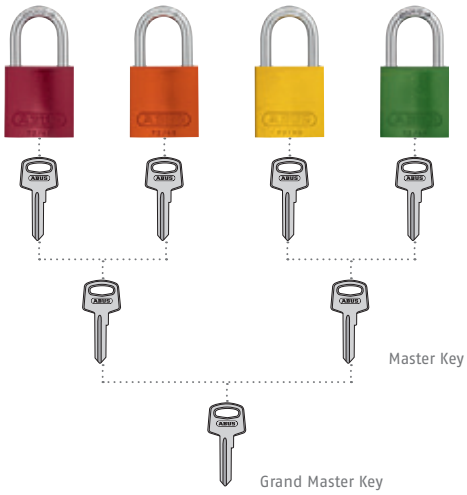

**Keyed Alike:**

Each padlock can be opened with the same key.

**Keyed Different with Master Key:**

Each padlock has its own key. The master key can open all padlocks.

**Keyed Different with Grand Master Key:**

Each padlock has its own key. The padlocks of each group can be opened with their respective master key. All padlocks can be opened with the grand master key.

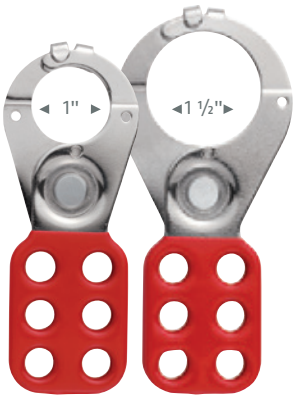

# Safety Hasps

## Lockout/Tagout Hasps

- Holds up to 6 padlocks
- Available with or without pry-resistant interlocking tabs for added security
- High-quality materials for different areas of application: recycled steel, spark-resistant aluminum or non-conductive plastic
- Steel and aluminum: 1" or 1½" closed hole available

# Lockout Devices

## Safety Redbox™

- Safety where you want it, when you need it: portable, convenient lockout box
- High level of stability in spite of low weight
- Ergonomic and space-saving fold-away handle
- Inside is exposed to light from all sides for better visibility of contents
- Lid features innovative and secure locking mechanism
- Patented lockable wall bracket, also facilitates storing of padlocks

| Item | Diameter of Holes | Holds #Locks | Material | Shelf Pk Qty | Shelf Pk lbs |

## Switch Lockout

- Made from high-quality polycarbonate housing: long-lasting and robust
- Easy installation: Remove the screws from the wall switch plate and use them to mount the device onto the plate
- Sliding mechanism makes the device very easy to use
- Offers extra durability with hinge-less design
- Holds 1 padlock with up to 5/16" shackle diameter

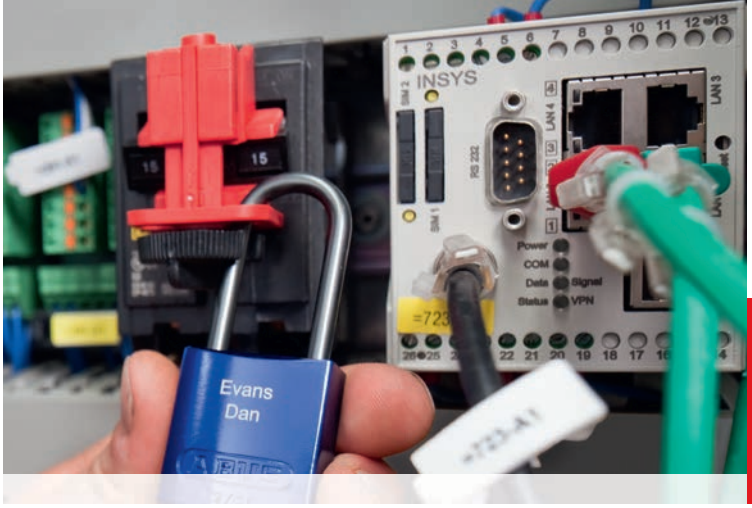

| Item | Holds #Locks | Shelf Pk Qty | Shelf Pk lbs |
|---|---|---|---|
| E250 | 1 | 1 | 0.10 |

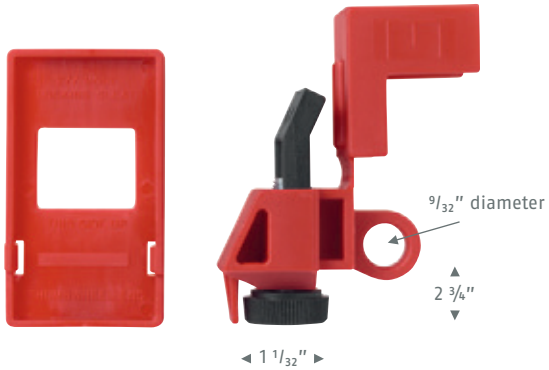

## Power Plug Lockout

- Made from high-quality polypropylene: long-lasting, robust and non-conductive
- 2 Sizes: For standard plugs or high-voltage plugs
- Cable tunnel on both sides to secure plug connections
- Warning stickers in different languages included
- Holds up to 4 padlocks with a shackle diameter up to 23/64"

| Item | Holds #Locks | Warning Sticker Languages | Shelf Pk Qty | Shelf Pk lbs |

# Service

## ABUS Charting

Available for KA, KD or MK locks

- End-user is checked by our proprietary charting software to see if we have shipped an order in the past
- All codes that have been shipped in the past are automatically excluded from production
- Codes that have not yet been used for the customer are printed from the charting software and used in production and picking
- The codes used in an order are then double-checked and entered by in-house customer service professional
- Over 40,000 unique codes available and possibility to create more unique key differes
- Charting across mulitiple series to unlock the full potential of the diverse safety lock offering: 41 Series, 72 Series and 74 Series

# Merchandising

# UL Environment Validation

**VALIDATED**

- ABUS HARDWARE LIMITED FACILITY HAS ACHIEVED VIRTUALLY ZERO WASTE TO LANDFILL OPERATIONS IN 2012 - 98% LANDFILL DIVERSION RATE
- 72 AND 74 SERIES PADLOCKS CONTAIN AN AVERAGE OF 73% RECYCLED CONTENT

UL.COM/ECV

ABUS's largest factory recently received a prestigious validation from Underwriters Laboratories Environment (ULE). All products manufactured in this facility including brass padlocks, steel padlocks, plastic padlocks, aluminum padlocks, and combination padlocks along with brass cylinders are now ULE validated. These products are manufactured in the first facility in the world to achieve virtually zero waste to landfill operations in 2012 at a 98% diversion rate.

In addition, the ABUS aluminum 72 series and non-conductive 74 series have been awarded a further recognition from ULE, meeting the requirements for a "recycled content" ULE claim validation. These products contain a combined average of 73% recycled materials.

All padlocks offered in the Ecolution™ Series are also made with cadmium-free plating, recycled materials and FDA-approved lubricants and are produced in a zero-waste facility.

ABUS ECOLUTION® For a greener World THE LOCK

Special materials and coatings are used in the manufacturing process giving the Ecolution™ line an industry-leading corrosion resistance

PVC free

All Ecolution™ products are made from eco-friendly, recycled materials (No PVC)

Cadmium free

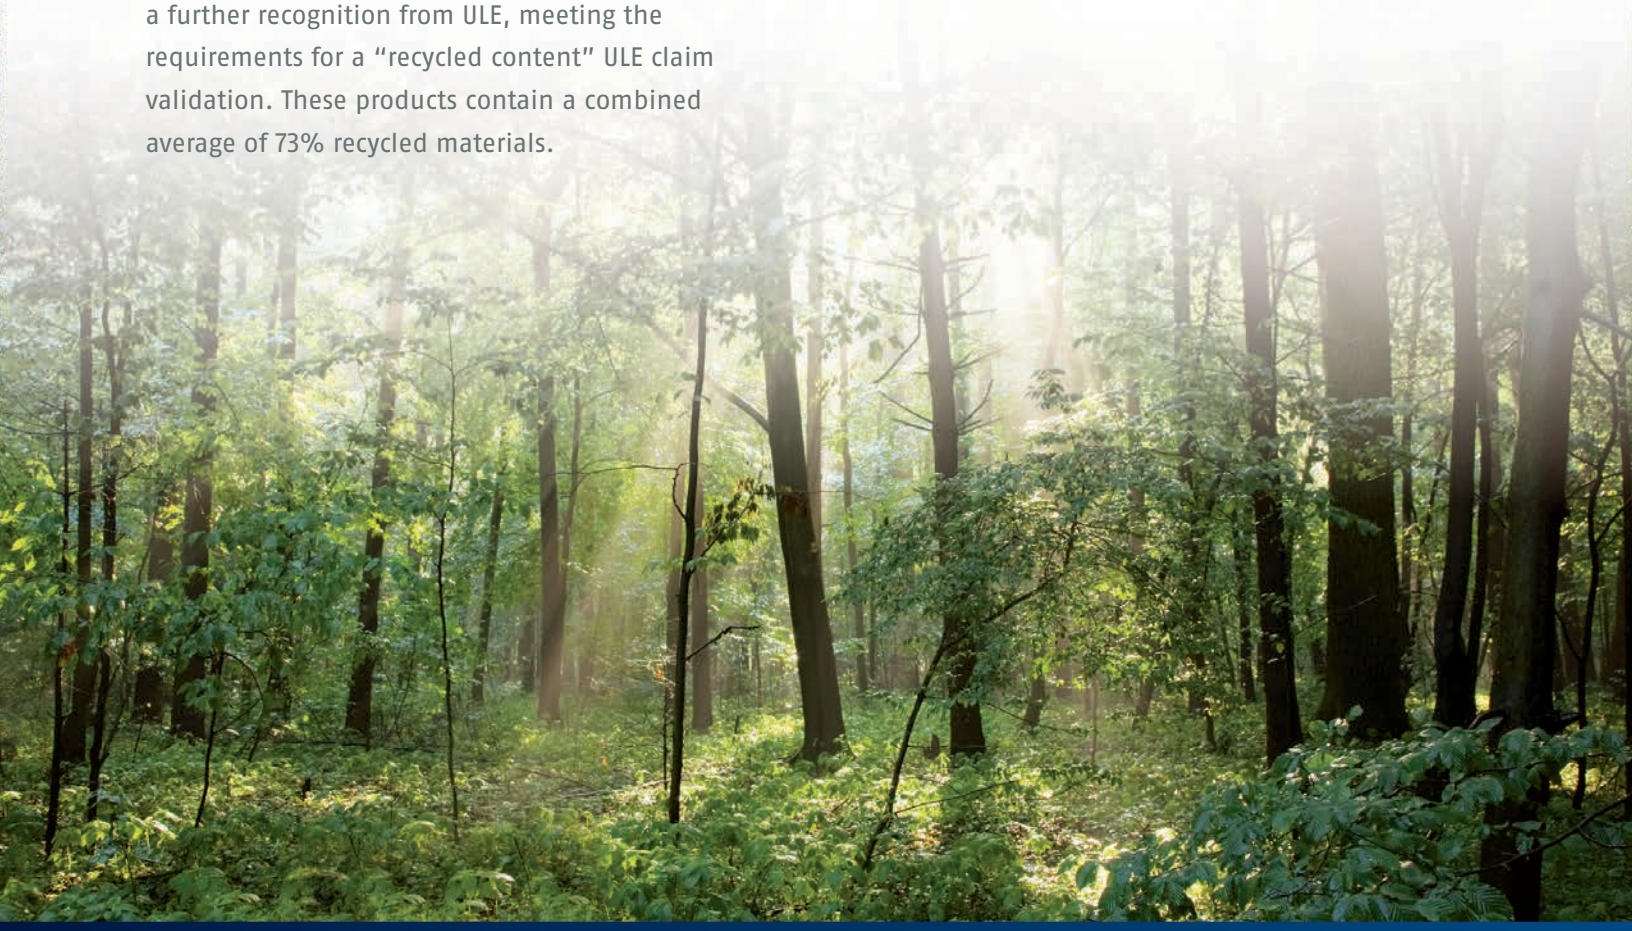

Non-hazardous, cadmium-free plating is safe for users and makes recycling easier

All packaging is made from 100% recycled material

Nontoxic

Food industry approved lubricants comply with FDA 21 CFR 178.3570 and USDA NSF H1 Certifications

ABUS factories operate as zero waste to landfill facilities, recycling 98% of all manufacturing byproducts

| Charting KD Locks | $ .40 additional per lock (net) |

**SHELF PACK SURCHARGES**
Ordering less than Shelf Pack Quantity:
$5.00 additional per broken shelf pack
$1.50 additional per file bar for broken factory packs
*10 bars per factory pack

**SPECIAL STOCKED ITEM CHARGES**
A 15% surcharge will be added to list price for any special stocked padlocks/keyways. Any special ordered item that ships complete as soon as it arrives in Phoenix will be exempt from the 15% surcharge.

**TERMS**
Net 30 Days
Prices are subject to change without notice and are not guaranteed.

**FREIGHT ALLOWANCE**
Full freight will be allowed and prepaid on orders of $750 or more to the continental United States only. Shipments to all foreign destinations, AK, HI and Canada are F.O.B. Phoenix, AZ. (Customer pays freight)

**CLAIMS**
All claims for shipping and/or invoicing differences must be submitted within 10 days of receipt of shipment. Upon delivery to or pickup by the carrier, title passes and shipments become the property of the customer. The customer assumes the risk of and makes claims for any loss, shortage or damage in transit.

**RETURNS**
No merchandise may be returned without prior written authorization from ABUS USA LLC. Credit will be issued at current price, or price paid, whichever is lower. We reserve the right to assess a 15% restocking fee for returned merchandise for reasons other than shipping errors. Any shipping deficiencies/shortages or damages must be brought to ABUS's attention within 10 days of receipt of merchandise so that we are better able to assist you.

Custom Pinning/Keying orders will be assessed a 25% re-stocking fee. If locks are laser-engraved they are non-returnable.

**FULL WARRANTY**
If an ABUS product fails to work properly due to a manufacturing defect, return it to ABUS postage prepaid, and we will return it repaired or replaced at our discretion. To obtain warranty service, please call 1-800-352-2287 or simply return the padlock prepaid along with receipt of purchase and all parts and keys if applicable to:

**ABUS USA LLC**
23910 N. 19th Ave., Suite 56
Phoenix, AZ 85085-1850

ABUS products are warranted for specific periods of time from date of purchase. Specific warranty periods appear on the packaging.

Commercial products are warranted for 2 years against manufacturing defects and ABUS reserves the right to replace or repair the product at its discretion. ABUS will return the repaired or replaced product to the original purchaser.

This warranty gives you specific rights, and you may also have other rights which vary from state to state. This warranty applies to ABUS brand products only.

**LIMITATION ON LIABILITY**
ABUS will not be liable for loss or damage to property or any incidental or consequential loss or expense from property damage due directly or indirectly to occurrences this padlock is designed to prevent.

Some states do not allow the exclusion of limitation of incidental or consequential damages, so the above limitation may not apply to you.

**CUSTOM LASER ENGRAVING**
Minimum order quantity for engraving is 48 padlocks. Price for engraving logos and characters are $1.00 net per padlock area/per lock up to 3 lines. There is a $20.00 set up fee for orders under 100. A laser engraving form with instructions needs to be sent along with PO at time of order.

# Key Control Combination Padlock Policy

ABUS has in stock the Key Control Combination Padlock (product 78/50 KC KA) for immediate shipment. Please review the following information needed for shipment. Any missing information will delay the processing of your order.

**ORDERING INFORMATION**
ABUS requires the following information to register each key-control system for each installation to ensure there is no duplication: full company name, address, ZIP code and telephone number of the school or ultimate user.

**INDICATE SYSTEM**
Use the stamping on the control key and/or back of the Key Control Combination Padlock to specify which key-control system you are ordering. If you require a new system or a different one at the same installation, note "new key-control system required" on the order form. Include the number of control keys needed. ABUS reserves the right to contact the end user to verify information.

**CHARTS AND KEYS**
For security purposes, we ship the Key Control Combination Padlock charts and control keys separately from the padlocks. Additional control keys are available at $6.00 each.

**DUE TO SECURITY REASONS, WE ARE UNABLE TO PROVIDE CUSTOMERS WITH COMBINATIONS FOR THEIR PREVIOUSLY PURCHASED PADLOCKS.**
