Action™

Kevlar® String-Knit Glove with Grain-Leather Palm

#SKGLP

SEWN WITH KEVLAR®

ASTM ANSI PUNCTURE 4 | ASTM ANSI CUT LEVEL 2 | CE | EN388 2342

703 grams of cut protection.

FEATURES

- Leather palms wrap around sides of fingers, while thumb is all leather
- Glove body made of knit Kevlar® for excellent cut and slash resistance, plus flame-resistance
- Palms attached to knit shell using Kevlar® thread for greater seam integrity

APPLICATIONS

Construction
Metal Stamping
Glass Handling
Forestry
Material Handling
Assembly
Sheet-Metal Work
Automotive
General Purpose

Our Action™ leather gloves have become the industry standard for heavy-duty cut resistance and durability. These feature an abrasion-resistant grain leather over a seamless-knit Kevlar® glove. An added benefit, Kevlar® will not melt or drip around heat and open flame, increasing the range of applications. Fingers of the leather palms extend around the sides. This is one of the greatest wear areas, (as seams tend to rub and annoy), often coming apart between the fingers. Our wraparound style increases protection and comfort, extends glove life and greatly improves launderability.

Complete with full leather thumb, palms are attached to the knit shell with Kevlar® thread for greater durability. This style boasts high cut and puncture protection and also flame resistance.
