AlphaTec®
ADVANCED CHEMICAL PROTECTION

08-354

Neoprene dipped coating on an interlock knit liner

Previously known as: ScorpioTM 08-354

Neoprene safety gloves with a rough finish, for enhanced grip in wet, slippery conditions

- **Advanced protection:** AlphaTec® 08-354 chemical-resistant gloves are 100% impermeable to liquid, guarding against varying hazardous chemicals and liquids, averting a variety of potential workplace injuries
- **Heightened grip:** With a textured finish, these medium-duty work gloves enable wearers to securely handle wet or slippery parts with ease, thereby increasing worker productivity
- **Elevated comfort:** Owing to their soft and stretchable cotton liner, AlphaTec® 08-354 protective gloves cushion the hand and absorb moisture, reducing excessive chafing
- **Increased flexibility:** These neoprene gloves are also particularly flexible, dexterously facilitating object handling and enabling simpler donning and removal, for lesser hand fatigue

Industries

- Automotive
- Chemical
- Logistics
- Machinery and Equipment
- Warehousing

Applications

- Equipment repair & maintenance
- Warehousing of raw materials
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Cleaning furnaces, distillation pumps, valves or lines and crackers BTX process

AlphaTec®
ADVANCED CHEMICAL PROTECTION

08-354

Neoprene dipped coating on an interlock knit liner

Previously known as: ScorpioTM 08-354

Key Features

- **Neoprene coating:** Advanced liquid and chemical protection
- **Rough finish:** Enhanced grip performance, for greater efficiency
- **Interlock cotton knit liner:** For soft, dexterous work gloves
