AlphaTec®
ADVANCED CHEMICAL PROTECTION

39-124

Strong mechanical performance and good chemical protection in a wide range of applications

Previously known as: Sol-KnitTM 39-124

Reinforced nitrile gloves, combining comfort with superb mechanical and chemical protection

- **Heightened durability and protection:** Versatile by design, AlphaTec® 39-124 nitrile-coated gloves combine durability, mechanical protection and chemical resistance, while ensuring superb dexterity and wet and dry grip
- **Advanced ergonomics:** These flexible work gloves are longer than the AlphaTec® 39-122 model, featuring a natural shape with curved, pre-flexed fingers and winged thumbs, for lesser hand fatigue and greater comfort
- **Food handling compliance:** AlphaTec® 39-124 food safety gloves comply with FDA food handling requirements, making them suitable for various food processing and service applications

Industries

- Automotive Aftermarket
- Metal fabrication

Applications

- Oil, fluids and filter change
- Handling materials with sharp or rough edges
- Applying finish to materials, products
- Adjusting panels parts components
- Production line support & maintenance
- Equipment repair & maintenance
- Assembly and disassembly of equipment

AlphaTec®

ADVANCED CHEMICAL PROTECTION

39-124

Strong mechanical performance and good chemical protection in a wide range of applications

Previously known as: Sol-KnitTM 39-124

Key Features

- **Nitrile coating:** For highly durable abrasion-resistant gloves
- **Ergonomic design:** High-dexterity work gloves ideal for light-duty tasks
- **FDA approval:** Compliant with relevant food handling requirements

Performance Standards

ANSI/ISEA 105-2024 A1 4 2
