#408

Chemstop™

Heavyweight Latex Glove

CFIA
#408

Our heavyweight 30 mil thick latex gloves have increased strength for better puncture and tear resistance, plus higher resistance to water based chemicals.

The glove is flock lined to increase wearer comfort. Diamond-pattern grip finish gives a good grip in wet conditions.

Agriculture Canada Approved for Food Handling.

This glove also has solvent resistance (methanol).
This glove has some resistance to these acids;

- Nitric Acid resistant up to a concentration of 10%.
- Hydrochloric Acid resistant up to a concentration of 36%.
- Sulphuric Acid resistant up to a concentration of 50%.
