#F230

Chemstop™

Premium Quality PVC Coated Gloves

#F230

ASTM ANSI ABRASION 4

ASTM ANSI PUNCTURE 2

FEATURES

- High abrasion and chemical resistance
- Double-dipped PVC for longer wear
- Rough palm-finish for excellent non-slip grip
- Absorbent fleece jersey liner for comfort
- Anti-bacterial treatment for better odor protection

APPLICATIONS

Chemical Indistry
Suitable for handling oils, acids and caustics
Organic Solvents
Commercial Fishing
Petrochemical
Fuel Oil Delivery

Chemstop™ premium quality PVC coated gloves are a great choice for situations where a good grip in wet or oily conditions is needed. Double-dipped PVC for excellent durability, abrasion and chemical resistance, the outer coat is rough-finished for superior grip. The two-piece, sanitized, fleeced jersey liner functions two ways; first, it absorbs sweat, keeping hands dry and comfortable. Second, it has an anti-bacterial treatment, so gloves are protected from odors. Ideal for use in fisheries, the petrochemical industry, mining or oil-related industries, such as fuel delivery.
