Black Foam Nitrile Gloves made with Dyneema®/Composite Filament Fiber Lining

#SDY30BFN

Dyneema®
The softer strength

These gloves do double duty for workers handling sharp, oily materials or machinery. Great comfort and flexibility begins with a 12" knit liner made with Dyneema® and composite filament fiber, which is then fully dipped in black foam nitrile while knit shell is stretched over an ergonomic hand form. This combination of nitrile and Dyneema®/composite filament fiber results in an ASTM cut level rating of 4, which, in addition to offering great puncture and tear resistance, provides a dependable grip by displacing liquids and oils on surfaces by absorbing them. Gloves also provide some protection against chemical splash. These gloves are the ideal choice for working around CNC machines, as well as in the automotive industry, since they are completely silicone-free.

Dyneema® is a registered trademark of Royal DSM N.V. | Superior is a licensed Manufacturer of DSM Dyneema®.

Dawn C.
TESTIMONIAL
Triumph Group

"The gloves are working out great. They last a lot longer than we thought they would and everyone seems to like the fit. It also has cut down on any accidents of cuts from parts that have sharp edges. We are very pleased with them."

CHEMSTOP

ASTM ANSI PUNCTURE 4 | ASTM ANSI ABRASION 4 | ASTM ANSI CUT LEVEL 4

2125 grams of cut protection.

FEATURES

- Great protection when working with sharp, oily materials and machinery
- Foam nitrile provides excellent grip in oil by absorbing and displacing liquids on surface
- Excellent puncture and tear resistance
- Fully coated gauntlet glove provides chemical splash protection
- Completely silicone-free, making them a great choice for automotive assembly

APPLICATIONS

Sharp Steel
Glass
Circuit Boards
Automotive
Maintenance
Petrochemical
Aerospace Industry
Metal Fabrication
