#MXHV5VSB

Clutch Gear®

Anti-Impact Hi-Viz Yellow Back Mechanics Oilfield Glove with Cut-Resistant Palms

#MXHV5VSB

Protected Area

From our Clutch Gear® line, these impact protection gloves feature red Armortex® palms that bring abrasion resistance to a whole new level. These unique gloves were engineered specifically for the oil patch.

Smart styling features high-viz molded impact protection backs that are flexible and do not prohibit the full range of hand movement. The addition of thermo plastic rubber (TPR) backing helps reduce back-of-hand injuries. TPR backing is sonically welded right onto the glove, rather than gluing it—that means it won't come off. Protection where you need it, flexibility where you need it and increased worker visibility on the job. Neoprene cuffs allow for easy donning and extra cushioning at the wrist.

Kevlar® is a registered trademark of E.I. du Pont de Nemours and Company.

Palm only

2146 grams of cut protection.

FEATURES

- Mechanics-style with abrasion-resistant palms makes this style ideal for the oil patch
- Impact protection thanks to thermo plastic rubber on back of hands, extending right to the fingertip to prevent injuries common in the oil and gas, and construction industries
- Unique Kevlar® blend lining provides ASTM cut-level 4 protection
- Neoprene cuffs with velcro closure
- Hi-viz knit shell increases worker visibility on the job

APPLICATIONS

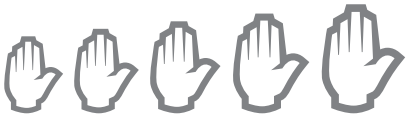

Drilling
Oilfield
Mining
Construction

ARMORTEX®

Developed as a bullet and blast resistant material in the security and defense sector, Armortex® lends its protective properties to state-of-the-art glove fabrication. Gloves with Armortex® are extremely strong and tear-resistant and feature unparalleled protection against puncture and abrasion.
