#SKGC

Contender™

Economy Cut-Resistant Composite Knit Gloves

#SKGC

This style in our Contender™ series features a combination of composite filament fiber wrapped with aramid fiber and polyester. Rated ASTM cut-level 4. (Gloves withstood 1725 grams of cut force during CPPT testing.)

Our unique spinning process wraps the composite filament fiber securely, both to prevent it from breaking down and to prevent it from coming through to your hand. This, along with high abrasion resistance, means that gloves retain a consistent level of cut protection over their lifespan for better safety and economy.

ASTM ANSI CUT LEVEL 4

1725 grams of cut protection.

FEATURES

- Advanced composite yarn provides excellent cut resistance
- Economical protection for a glove of such high cut resistance: ASTM cut-level 4
- Composite filament fiber is securely wrapped with high-strength fibers; will not come through to hands OR break down
- Unique spinning process means cut resistance stays consistent over life of glove
- Composite filament fiber does not add bulk, weight or cost to gloves, yet boosts cut protection
- Excellent comfort and fit in a seamless string knit

APPLICATIONS

Metal Fabrication
Automotive Assembly
Glass Handling
Sheet Metal
