- Reinforced Kevlar® thumb patch
- Inside seams are pre-serged for improved seam strength and washability
- Speckled brown colour continues to look great after many washes

APPLICATIONS

Food Processing
Bakeries
Restaurants

Superior offers a range of bakers mitts in preshrunk, washable 32 oz. heavy-duty knit terry for intermittent protection against dry thermal burn during food processing. Providing protection up to 230°C—excellent conductive-heat resistance. Inside seams are pre-serged for improved seam strength and washability. Other features include Kevlar® thumb patches to improve heat resistance and lengthen wear life, and CE level 3 cut resistance for protection against low cut hazards. Featuring a speckled brown colored shell that camouflages stains, these gloves will also maintain their visual appeal over time.

Available in 15”(#TBM7), 17”(#TBM), 12”(#TBM4) lengths.
Also available with Oilbloc® 17”(#TBMOB).

Bakers Pads: #BPE, #BPS, BPEOB available with Oilbloc®
