Dura-Touch®

Complex Design

Ambidextrous single-use vinyl gloves.
Premium vinyl disposable range.
A cost-effective choice wherever gloves must be frequently changed.

Recommended Usage

- Handling plexiglass, china or precious metals
- Polishing jewels
- Precision assembly
- Product inspection
- Laboratory work
- Equipment cleaning
- Handling paints, inks and dyes
- Handling glues and adhesives
- Hairdressing
- French polishing
- Painting, coating and cleaning

Competitively priced.

A stronger, economical alternative to household rubber gloves. Reduces costs for hand/product protection wherever changeover rate is high.

No seams to leak or split.

Liquidproof, with no point of weakness.

AQL 1.5 (34-175); AQL 4.0 (34-500)

Greater reliability. A more reliable barrier against contamination or infection.

Pre-powdered.

More comfortable to wear and easier to put on and remove without tearing. Gloves contain no talcum powder which might contaminate products.

Ambidextrous, fits either hand.

More economical and convenient: no need to pair left and right.

Packaging

100 gloves per sealed dispenser, 10 dispensers per shipping case.

Specifications

Ref	Type	Style	EN Size	Length	Colour	Thickness
