Ansell

Ideas that fit.™

WHEN IT'S HOT, IT'S HOT!

Ansell has the products to safeguard your workers and help keep them cool in the kitchen. Whether the task involves hot rotisseries, messy grease filters, glowing griddles or bubbling deep fryers, we've got the "must have" items that provide excellent splash protection from greases and oils, and are unaffected by detergents and cleaning solutions for long product life.

Ansell's ThermaPrene™ gloves are the perfect combination for your fryers, grills and rotisserie applications. The superior dexterity and grip of this glove make it comfortable to use. Its coating makes for easy cleaning while the hang dry liner eliminates bacteria traps.

ORDERING INFORMATION

STYLE	DESCRIPTION	SIZE
19-024 Thermaprene	18" length, flexible neoprene shell over thermal liner, unaffected by greases and oils*	8, 10
19-026 Thermaprene	26" length, flexible neoprene shell over thermal liner, unaffected by greases and oils*	8, 10

* For intermittent handling of hot objects up to 400° F.

WE'LL HELP YOU CUT IT... AND TAKE THE HEAT!

From razor-sharp edges used for slicing, boning, trimming, filleting and other cutting activities to those that require handling hot pans and baking trays fresh out of the oven, these food service operations demand the quality and durability of Ansell products designed for extreme tasks. Our specialty garments will aid in protecting your workers from cuts and burns... and help keep downtime and lost production out of your kitchen.

For cut protection and good grip, Ansell's Polar Bear® PawGard™ Mediumweight gloves are created from cut-resistant Dyneema® and other hi-tech fibers. Launderable, shrink-resistant, and with Tuff-Cuff™ II technology for reduced cuff degradation and blowout.

ORDERING INFORMATION

WE'RE SERVING IT UP...

Every dish you make looks beautiful and tastes great, but freedom from contamination should be the most important portion of every meal leaving your kitchen. Our extensive line of products will help ensure freedom from the transfer of food-borne diseases, bacteria and viruses to your customers. At Ansell, we'll help you deliver *only* what the customer ordered.

The key is constant vigilance, and our line of disposable polyethylene, vinyl, synthetic, nitrile or latex gloves is an economical choice. The ambidextrous design is very comfortable, and the near "bare hand" feel makes them ideal for food preparation and serving operations.

… AND HELPING YOU KEEP IT SQUEAKY CLEAN!

Besides creating tasty dishes, you know the food service business is a 24/7 cleaning battle. So does Ansell. We understand the importance of maintaining cleanliness in your facility. That's why we've developed products specific to protecting your workers as they keep everything from kitchen and dining areas, to restrooms and trash disposal sites sparkling clean. Surface-borne contamination is one entrée you don't ever want to serve.

Pots, pans, utensils, surfaces and other items are always in need of cleaning, and products like our FL-100™ and Sol-Vex® line of gloves make the job easier. Extremely comfortable and durable, their natural and/or man-made rubber composition helps protect workers from the strongest detergents and abrasive cleaners. The Endurosaf® apron is lightweight for improved comfort and resists punctures, abrasion, chemicals, and deterioration caused by exposure to fats and oils.

ORDERING INFORMATION

STYLE	DESCRIPTION	SIZE

UP IN THE MORNING... AND TAKING STOCK!

Before you create the perfect meal, you need the finest ingredients. Whether the delivery is fresh, frozen, palletized, or in loose containers, your workers need the protection Ansell gloves provide. From cumbersome loads with sharp edges to handling icy containers that might slip/slide away, deliveries will be in good hands when the working hands lifting the goods are protected with gloves designed to make the job easier and safer.

A combination of cut-, abrasion- and puncture-resistance make PowerFlex® 80-100 gloves stand-up to every delivery task. They're ergonomically designed with superior wet/dry grip and an open back allowing for improved air circulation to keep hands cooler and drier.

For added protection when handling frozen foods, the PowerFlex® T°™ Hi Viz Yellow 80-400 is a cold weather warrior! The thermal liner protects hands from intermittent contact with cold objects down to -25°C or -13°F.
