#SKBFNTVB

Emerald CX®

Impact-Resistant Nylon/Stainless-Steel Cut-Resistant String-Knit Glove

#SKBFNTVB

ANSI 2 ABRASION | ANSI 3 PUNCTURE | ANSI A3 CUT

CE EN388 4331

1050 grams of cut protection.

FEATURES

- Combination of nylon and fine-gauge steel for ASTM cut-level 3 / CE-level 3 cut protection
- Thermo plastic rubber on back of hands offers impact protection and extends right to the fingertip to prevent injuries common in this part of the hand
- Extra-long (3 ¾"/ 9 cm.) knit wrists protect wrists, keep gloves fitting snugly
- Nylon-knit inner face for softness and comfort
- Lint-free nylon is lightweight and tough for better dexterity, yet comfy and dexterous with good touch sensitivity

APPLICATIONS

Mechanical
Oil and Gas
Construction

This glove features a custom-engineered blend that combines the lightweight ease and strength of nylon with multi-strand stainless-steel wire, and thermo plastic rubber (TPR) backing to reduce back-of-hand injuries. TPR backing is sonically welded right onto the glove, rather than gluing it—that means it won't come off. With these gloves, you get triple the cut resistance of comparable blends at half the cost of comparable cut-resistant styles.

Two kinds of fine stainless-steel wire in the knit provide ASTM cut-level 3 / CE-level 3 cut protection, based on a cut resistance of 1050 grams. Wire cannot be felt against the hand since the inside face is knit with 100% nylon for a smooth, comfortable feel. The combination of soft-yet-strong nylon and the strength of steel makes these gloves a comfortable and economical choice for cut protection.

Longer 3-¾" / 9 cm. knit wrists provide stay-in-place comfort and great wrist protection, while the TPR backing adds another level of defense.

Gloves are palm coated in black foam nitrile to increase grip in oily/wet situations. Foam nitrile is soft and absorbent and works to enhance grip by displacing the oil on smooth surfaces, but won't allow oil to soak through to the hand, making it the preferred choice for oily applications.

TESTIMONIAL

"Great gloves! I'm using them for demolition work. I have tried several kinds of gloves and so far these ones are the only ones capable of withstanding 3 inch screws." - Lucas
