Endura®
WINTER COWGRAIN MITT
Fully Acrylic-pile Lined

FUNCTIONAL BENEFITS:

- Mitt style keeps hands warmer than gloves
- Durable cowgrain ideal for rugged outdoor work
- Cowgrain resists abrasion, provides some water repellency
- Slip-on style mitt for easy on and off
- Elasticized at front of wrist for snug fit, keeps warmth in and cold and snow out
- Seams fully welted for durability
- Two styles: mitt or one-finger
- Warm acrylic BOA pile lining

APPLICATIONS:

Cold storage, warehouse
Snowmobiling/recreation
Construction
Agricultural
Ranching
General purpose for cold-weather

321BOA

304BOA

Endura® Cowgrain Winter Mitt w/Acrylic-pile lining

Tough cowgrain exteriors are highly abrasion resistant, durable, and provide just enough water repellency for most of the tasks they were designed for. Thick, acrylic pile lining provides a snug, cushiony, layer of insulation, keeping fingers toasty warm. Elastic at the wrist keeps the warmth in, cold air and snow out. Two styles to choose from: regular mitt, and one-finger mitt. Both feature metal clips to keep them together when not in use. In the coldest conditions, Endura® heavy-duty mitts let you get the job done - comfortably.

304BOA	ENDURA® Winter cowgrain mitt, fully acrylic-pile lined, fully welted seams, metal clip.
321BOA	ENDURA® Winter cowgrain one-finger mitt, fully acrylic-pile lined, fully welted seams, metal clip.

One size fit all.
