5558x10 Green Monkey

LANDFILL BIODEGRADABLE NITRILE DISPOSABLE

WATSON GLOVES
Quality since 1918

1 8MIL POWDER FREE NITRILE

8 mil heavyweight, powder free nitrile is exceptionally durable with superior abrasion and puncture resistance

2 ROLLED CUFF

11" rolled cuff for greater strength and higher wrist protection

3 TEXTURED PATTERN

Textured pattern provides a *sure-grip* in oily and wet applications

4 ADDITIONAL

10 gloves per dispenser

HOW IS GREEN MONKEY LANDFILL BIODEGRADABLE?

Regular nitrile disposable gloves take more than 200 years to breakdown. Watson Gloves Green Monkey™ nitrile disposables will break down in only 8-11 years due to an additive in the nitrile formulation.Green Monkey™ nitrile gloves have the same performance properties as regular nitrile disposables. Biodegradation only begins when the gloves are discarded in landfills conditions (ASTM D5526 – low heat, high pressure, limited oxygen, no light and low moisture). Once the biodegradation process begins, the additive in the Green Monkey™ nitrile disposables will ensure that they do not just break down into smaller plastic pieces, but are actually converted to biogas like other organic materials. ASTM D5526 shows up to 26.5% biodegradation in 390 days.

DISPOSABLE

PRODUCT # | NAME | BRAND	5558x10 GREEN MONKEY
