WEYBURN PARKA

590

The Weyburn Parka is designed for the coldest winter work outside. The beaver nylon exterior is hard wearing, while the thermal pile lining provides great insulation and warmth no matter the weather. Since this parka is designed for below freezing conditions, the water repellent exterior will be perfect to retain movement and not freeze up. The fit can also be adjusted via an elasticated waist and inner wind belt.

COLORS
590 NAVY
