HyFlex®

ADVANCED MECHANICAL PROTECTION

11-539

Fully Light Duty with INTERCEPT TECHNOLOGY® and ANSELL GRIP™ Technology

Cut | LD Light Duty

Exceptional grip performance and fully coated protection in a comfortable ultralight weight cut resistant glove

- The 11-539 Optimizes the convergence of protection and performance. It features an 18G ultralight weight liner with INTERCEPT TECHNOLOGY® yarns that provides ANSI Level 2 performance
- The liner also features ZONZ™ Comfort Fit technology for breathability and ergonomic movement. The fullydipped coating and the FORTIX™ Technology formulation provide enhanced abrasion resistance and grip
- To provide all four advanced performance technologies, including cut performance, in a comfortable, flexible ultralight weight style, is a game changer for applications where workers have traditionally guarded against cut risks with heavier styles that limit their dexterity and breathability

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

Applications

- Handling metal sheets & panels
- Handling parts with sharp, rough edges
- Final assembly
- Handling materials with sharp or rough edges
- Assembly & inspection of components
- Applying finish to materials, products

HyFlex®

ADVANCED MECHANICAL PROTECTION

11-539

Fully Light Duty with INTERCEPT TECHNOLOGY® and ANSELL GRIP™ Technology

Key Features

- Ultralight weight glove that offers unparalleled dexterity and refined mobility
- ZONZ knitting technology uses selected yarns and varying stitch designs to tailor overall glove fit to enhance hand movement for higher dexterity and reduced fatigue
- Silicone free design is paint and finish process friendly
- Dirt masking palm for longer wear times
- Also available in vend pack
