SUBMERSIBLE PUMP - 1/2 HP

Product # **290771** | Model # **R400-115**

- Ideal for dewatering constructions sites, mines, circulating fountain water, or for all around use in industrial plants and utilities
- Top discharge – allows for superior cooling of motor and provides a slim line design
- Longer power cord – standard 33' power cord
- 304 Stainless steel motor housing – superior abrasion resistance will not wear out like aluminum motor housings when pumping sandy water
- Three seal motor protection - motor is protected by double mechanical seals. Lower seal made of silicon carbide and upper seal is made of carbon/ceramic. An additional lip seal has been installed above the impeller, to help prevent abrasives such as dirt, silt or sand, from entering into the seal chamber
