Telescopic Clipper Dust Mop Handle

Clipper dust mop handle made of a telescopic pole in metal.

The Telescopic Clipper Dust Mop Handle is a non-threaded metal pole that is made to be paired with the Clipper dust mop frame. It can be extended up to 70" long. The collar on the handle releases so the frame can either swivel 360 degrees and move around obstacles, or can be locked into a rigid position for long corridors. Add a STATIC-H™ Dust Mop to the mix and you've got yourself a super dusting trio.

Product Features

- 70" telescopic pole
- Non-threaded handle

- Collar releases for head swivel
- Extendable handle
- Compatible with the Clipper dust mop frame
