Microfiber Tube Mop - Large - Blue

The Microfiber Tube Mop has twice the cleaning strength of cotton mops and is great on rougher surfaces.

Introducing the Microfibre Tube Mop with Loop-Ends, a high-performance solution for deep and efficient floor cleaning. Its innovative tube design minimizes drag and maximizes productivity, making cleaning effortless. The tailband construction prevents tangling and provides superior coverage, ensuring thorough cleaning in every corner.

The wide band is specifically engineered for scrubbing scuff marks and stubborn dirt, making it ideal for rough surfaces such as terrazzo, garage floors, and similar applications. Constructed from premium microfibre, this mop penetrates deep into floor surfaces for an exceptional clean.

For optimal performance, pair the Microfibre Tube Mop with a Jaws Mop Handle and use it with a down press wringer to efficiently extract water.
