PROTECTION

Clean & Safe™ Guarantee

As a supplier of PPE, contributing to the safety of consumers and workers is of the utmost importance to Ronco. For that reason, we have adopted the principles of the Clean and Safe™ Guarantee. From the storage of the raw material to the delivery of the product to your warehouse, Ronco is committed to maintaining the integrity and hygiene of each of the products we offer.
This Guarantee ensures that products remain in their sanitary condition throughout the supply chain, including the:

- Transportation and shipping
- Quality and storage of raw material
- Verification and control of finished product quality
- Handling and transformation at the manufacturing facility

Raw Material

Close attention is paid to the consistent quality and storage of the raw material used in the manufacturing process. This stage is the first step in ensuring consistency in the quality of the finished product.

Manufacturing Facility

This step of the Clean and Safe™ system focuses on the:
- Safety of employees
- Cleanliness of packaging materials
- Storage of finished goods until shipment
- Hygiene of workers, particularly of those individuals in direct contact with the product

Quality Control

Product quality is verified at several stages before delivery to customers. Quality control inspections are done during production processes followed by a final pre-shipping inspection. Upon arrival of the products at our main Ronco warehouse in Canada, a further quality inspection is performed in order to ensure that they meet standards and specifications.

The Guarantee's Benefits for You

With this Guarantee in place, you can be confident that you will receive products that:
- Offer nsistent quality
- Meet and exceed industry standards
- Are hygienic, reducing the risk of contamination

Quality at Ronco

Providing consistent quality products: our priority

Ronco is a customer-focused company committed to providing consistent quality products and services to respond to industry's safety product requirements. We are dedicated to the support and realization of our quality policies, objectives and systems. In order to achieve our goals, employee training is an important part of our corporate culture.

Quality Control

As a part of our efforts to ensure that we only deliver consistent quality products, all of our products undergo strict quality inspections, to ensure that they comply with our specifications.

- During manufacturing process, on-line inspections are performed
- As the products are being loaded, we check to ensure that the packaging is in good condition
- Upon arrival of the goods at our main Ronco warehouse in Canada, a further quality inspection is performed
- Before products are shipped, Ronco representatives conduct a quality inspection of random samples, to ensure that all products meet the required specifications

HACCP

In response to increased consumer demands for food safety, food facilities adhere to food safety programs incorporating internationally recognized HACCP – Hazard Analysis Critical Control Points – principles to reduce the risk of cross-contamination.
RONCO features a full line of disposable and reusable gloves, as well as protective gear, many offered in a variety of colors, to assist you in achieving HACCP compliance.

ISO

Ronco is ISO 9001:2015 certified as well as ISO 13485:2016 certified for our medical device products. As such, our entire company is committed to providing products and services that consistently satisfy and exceed the requirements and expectations of our customers.

- We have established and will continually improve the effectiveness of our quality management system, embracing the values of our business and customers
- We strive to work with suppliers who are also ISO 9001:2015 certified

Our Mission

To provide our customers with consistent quality products to enhance user safety, confidence and productivity at competitive prices.

DISPOSABLE GLOVES

Ronco features a wide range of Disposable Gloves

Ronco provides a wide range of disposable gloves, including Nitech EDT®,nitrile, vinyl and latex. Available in sizes from X-Small to XX-Large, these gloves cater to a variety of industries including food processing, food service, beauty, industrial and light chemical applications among others.

HEAD HAND BODY

PROTECTION

Quality Control

At Ronco,
we believe in strict quality checks at various stages,
including during production, packaging and upon arrival.

We check the gloves for various properties including the following:

PROPERTIES	DESCRIPTION
Length	
Thickness	Fingertip Palm Cuff
Physical properties	Tensile strength, before and after aging Elongation, before and after aging Maximum powder level
Major visual defects	Holes in the fingers Holes between fingers Uneven color Coagulum > 5 mm Weakness between fingers Foreign particles/dirt/stains (Non-removable) Mixed size Excess powder No bead or not completed bead
Minor visual defects	Removable dirt Slight color variation Small stains Coagulum < 5mm Uncharacteristic odour Blister bead
Pinholes	

Ronco's AQL
(Accepted Quality Level) meets or exceeds the international standards.

AQL:

Pinholes 1.5
Major defects 2.5
Minor defects 4.0

HACCP COMPLIANCE

Ronco offers a wide range of gloves in a variety of colors to assist in HACCP (Hazard Analysis and Critical Control Points) compliance.The different colors help you to reduce the risk of cross-contamination at your workplace.

Color Coding System

Ronco uses an innovative size selection color coding system on the entire range of disposable glove dispensers to facilitate easy identification of the correct glove size.
Each one of our dispensers is color coded on both ends as well as on the top panel, making it easy to identify the right glove size.

NITECH EDT®

Disposable Gloves

NITECH EDT® Disposable Gloves are exclusive to Ronco, manufactured from a patented blend of premium quality synthetic materials. The new EDT® formula makes it easier to put the gloves on moist hands.This flagship Ronco glove is 100% powder free, latex free, and ideal for a number of food, janitorial/sanitation and general uses.

Ronco NITECH EDT® was developed in response to application requirements for a level of protection in between vinyl and nitrile. NITECH EDT® is the glove “For Everything In Between”.
