WORK LIGHT MAGNETIC STAND

Product # **849896** | Model # **JMS-1**

- Highly efficient Surface Mounted Diode technology provides brilliant white light with minimal power consumption
- Stays cool to the touch even after all day use
- 6500K colour temperature ideally mimics daylight for true colour reproduction
- 30,000 hour life expectancy and low power consumption means low cost of ownership over the life of the lamp
- Robust cast aluminum housings protect inner components from impact damage
