# Endura® | 335DBP

Dexterous TIG welding gloves with thin but durable leather palms for precision welding

ANSI 2 HEAT

## ABOUT THE PRODUCT

Our heat-resistant Endura® 335DBP gloves feature thin leather palms that offer better range of motion and tactility plus a reinforced leather back to balance precision and durability. They offer ANSI 2 heat protection with elk leather palms and fingers for a thinner shell that provides better dexterity and feel without sacrificing durability. The gloves feature split-leather cowhide back and are sewn with ParaActiv™ thread for added seam integrity from heat and sparks.
