ABOUT THE PRODUCT

Our Endura Pro™ 378GOTXVB gloves are liquid resistant and feature TenActiv™ engineered yarn liners to provide 360° cut protection with ANSI A6 cut resistance. These gloves are unpadded for a better sense of touch and wider range of motion, making them ideal for maintenance work or climbing ladders and gripping handrails in oil and gas. The reinforced back-of-hand bumpers protect against knocks and bumps without inhibiting freedom of movement.
