SolvStop™ | N230CR

Waterproof chemical-resistant nitrile that stays flexible in cold conditions plus durability for long wear life

ANSI/ISEA 105 X 4 3

WATERPROOF

ABOUT THE PRODUCT

Our waterproof SolvStop™ N230CR gloves are made with specially formulated nitrile that stays flexible in cold conditions for better range of motion and grip. Lined with cotton for warmth down to 5°C / 41°F, they resist oil, natural solvents, and water, making them ideal for work in fisheries or for tasks that require chemical protection in cold environments. The nitrile coating helps resist oil and other solvents and is textured for improved, steady grip on wet or oily surfaces.

ALTERNATIVE VERSIONS

N230FL, N230FLK
