SolvStop™ | NE240TKL

Heat-resistant 16-inch chemical gloves for protection against caustics in maintenance tasks

ANSI/ISEA 105 A3 X 3 | 0°C 32°F | ANSI 3 HEAT | WATERPROOF

ABOUT THE PRODUCT

Our SolvStop™ NE240TKL gloves are 16 inches long and offer protection against chemical and heat hazards. They're made from neoprene for protection against a wide range of chemicals, including acids, caustics, and oil. A cotton liner provides ANSI 3 heat resistance for protection from thermal contact, plus they offer 360° cut protection with ANSI A3 cut resistance. Long-length gloves provide extra forearm coverage and diamond-grip textured palms offer steady grip.

ALTERNATIVE VERSIONS

NE246FFL

APPLICATIONS

CHEMICAL PROCESSING, OIL & GAS

RECOMMENDED FOR

CHECMIAL REFINERY, CHEMICAL HANDLING, OIL REFINERY, PETRO-CHEMICAL

AVAILABLE SIZING

7, 8, 9, 10, 11
