SolvStop™ | NS230PU

Food safe polyurethane water protection for flexibility and warmth down to -15°C / 5°F

ANSI/ISEA 105 X 3 2

-15°C 5°F

WATERPROOF

ABOUT THE PRODUCT

Our polyurethane SolvStop™ NS230PU gloves are food safe and protect hands in cold temperatures down to -15°C / 5°F. Ergonomically shaped for a more comfortable fit, they remain flexible in cold temperatures to improve dexterity and range of motion. The hi-viz orange polyurethane resists liquid and provides hand placement awareness and worker visibility on the job. CFIA-compliant for safe food handling.
