MetaActiv™ | S13FRT

Heat-resistant general use gloves made with material known to resist flame

ANSI 2 HEAT

ABOUT THE PRODUCT

Our MetaActiv™ S13FRT general use gloves provide protection against heat and tasks with a high risk of exposure to sparks or flames. They are made from BlazeActiv™ fiber that is known to resists burns, melting, and dripping when exposed to flame. Can be worn on their own or as liners for added protection.
