KnitActiv™ | S13PU

White nylon low-linting gloves for food machine maintenance with non-marring palms that show dirt and contaminants

ANSI/ISEA 105 X X 2

NON-MARRING

ABOUT THE PRODUCT

Our food safe KnitActiv™ S13PU white nylon gloves are low-linting and non-marring to detect and prevent contamination during food machine maintenance. A non-marring polyurethane palm dip coating offers a better dry grip and tactile feel that will not leave a residue, making them ideal for glassware and small parts handling. They are also CFIA-compliant for safe food handling.
