Dexterity® | S18TAPNVB

Cut-resistant gloves that are softer than typical cut protection and will not irritate skin plus impact protection

ABOUT THE PRODUCT

Our Dexterity® S18TAPNVB cut resistant gloves provide impact protection and are made from a soft material that is non-irritating while still protecting hands for more comfortable all-day wear. These gloves feature no additives like steel or fiberglass ensuring they will not irritate skin when worn. Made from TenActiv™ engineered yarn to provide 360° cut protection with moderate ANSI A5 cut resistance and offer impact protection against knocks and bumps. The micropore nitrile palm coating offers steady wet grip that is touchscreen compatible while the reinforced thumb crotch protects against wear and tear when material handling.
