Dexterity® | S18TXLXMP

Maximum hypodermic and cut-resistant palms with better range of motion than traditional puncture protection

ANSI/ISEA 105 A9 3 4 | ANSI 5 PUNCTURE | ASTM F2878 Hypodermic Needle

ABOUT THE PRODUCT

Our Dexterity® S18TXLXMP gloves protect palms with maximum ANSI 5 hypodermic protection and ANSI A9 cut resistance that is more dexterous than traditional puncture resistance. The palms are reinforced with a metal mesh to protect palms from sharp objects while retaining freedom of movement. TenActiv™ engineered yarn provides back-of-hand ANSI A5 cut resistance while the latex palm coating is crinkled for a better grip.
