Dexterity Pro™ | S21TXUFNVB

Ultra-thin maximum cut resistance with low-profile impact protection for freedom of movement in tight spaces

ANSI/ISEA 105 A9 3 3 | ANSI / ISEA 138 1 | TAA COMPLIANT

ABOUT THE PRODUCT

Our ultra-thin Dexterity Pro™ S21TXUFNVB gloves match maximum cut resistance with low-profile back-of-hand impact protection for work in confined spaces where hand maneuverability is a must. Featuring ANSI 1 impact resistance against knocks and bumps, the slim back-of-hand protection is more flexible at finger knuckles for improved range of motion. TenActiv™ engineered yarn provides 360° cut protection with extreme ANSI A9 cut resistance, making them ideal for material handling and maintenance work. Ultra-thin touchscreen compatible foam nitrile palm coating to seamlessly move between tasks and offers steady wet grip with a barehand feel.

Dexterity Pro™ S21TXUFNVB ANSI A9 cut-resistant gloves are third-party tested and verified to meet the ANSI / ISEA 105 standard in accordance with the ASTM F2992-15 test method for cut protection.

APPLICATIONS

CONSTRUCTION, METAL FABRICATION, MINING, UTILITIES

RECOMMENDED FOR

CHANGING AND SHARPENING BLADES, EQUIPMENT MAINTENANCE, GENERAL LABOUR, MATERIAL HANDING, SHEET METAL HANDLING, VEHICLE MAINTENANCE

AVAILABLE SIZING

5, 6, 7, 8, 9, 10, 11, 12

SHIPPING AND PACKAGING

Unit of Measure	Pair
Country of Origin	Honduras

FEATURES AND TECH

Touchscreen Friendly	Yes
TAA Compliant	Yes
