KnitActiv Pro™ | SNTAPVCFB

Cold-rated with incidental cut hazard protection and extended water-resistant palm coating that won't stiffen in cold temperatures

ANSI/ISEA 105 A3 3 2

-5°C 23°F

ABOUT THE PRODUCT

Our cold-rated KnitActiv Pro™ SNTAPVCFB PVC gloves offer extended palm coating for water protection that won't stiffen in cold temperatures. They provide 360° cut protection with low ANSI A3 cut resistance while their fleece lining keeps hands warm down to -5°C / 23°F. Extended ¾ PVC palm coating covers fingers up to the knuckles for water protection that resists stiffness in cold temperatures, improving range of motion in wet and wintry conditions.
