KnitActiv Pro™ | SPGC2D

Heat and cut protection for handling hot parts with double-sided PVC dots for breathable grip

ANSI/ISEA 105 A4 X X | ANSI 2 HEAT | TAA COMPLIANT

ABOUT THE PRODUCT

Our KnitActiv Pro™ SPGC2D gloves protect against heat and cut hazards and feature double-sided PVC dots for breathable grip. Made with engineered yarn, they provide 360° cut protection with ANSI A4 cut resistance and ANSI 2 heat protection. A knit construction offers dexterity and comfort, making them ideal for handling hot parts while PVC dots along the palm and back of the hand offer steady grip that is more breathable and flexible than full coverage gloves. Latex-free to reduce the risk of allergic reactions, their ambidextrous design makes them reversible to increase wear life.
