ParaActiv Pro™ | SPGRK2D

Heat and cut protection with double-sided PVC dots for breathable comfort and ambidextrous grip when handling hot parts

ANSI/ISEA 105 A6 2 X | ANSI 3 HEAT | TAA COMPLIANT

ABOUT THE PRODUCT

Our ParaActiv Pro™ SPGRK2D gloves protect against heat and cut hazards and feature double-sided PVC dots for breathable grip. ParaActiv™ engineered yarn provides 360° cut protection with ANSI A6 cut resistance and ANSI 3 heat protection, making them ideal for handling hot parts. PVC dots along the palm and back of the hand offer steady grip that is more breathable and flexible than full coverage gloves. Latex-free to reduce the risk of allergic reactions, their ambidextrous design makes them reversable to increase wear life.
