TenActiv Max™ | STXPNRPVB

Vibration-dampening maximum cut protection with impact resistance for high-frequency hazards

ANSI/ISEA 105 A9 5 5

ANSI / ISEA 138 2

ABOUT THE PRODUCT

Our TenActiv Max™ STXPNRPVB gloves feature padded palms for protection against high-frequency vibration hazards, like handheld power tools, plus extreme cut protection and impact resistance. Made with TenActiv™ engineered yarn for 360° cut protection with ANSI A9 cut resistance, their hi-viz back-of-hand ANSI 2 impact protection guards against knocks and bumps while providing better hand placement awareness and worker visibility on the job. Micropore nitrile palm coating offers steady wet grip, and a reinforced thumb crotch protects against wear and tear when material handling.
