Dexterity® | S18TXFTLP

Zoned maximum cut resistance that protects the most vulnerable areas

ANSI/ISEA 105 A6 X 5

TAA COMPLIANT

ABOUT THE PRODUCT

Our Dexterity® S18TXFTLP gloves feature leather palm patches with the industry's maximum cut protection. The patches are reinforced with a metal mesh to protect palms from sharp objects while the uncovered fingers and thumb allow for touch sensitivity when picking screws or nails out of belt pouches. These gloves are ideal for framers, carpenters, general construction, and other jobs that involve use of nails and screws.
