#S13FGPU

Superior Touch®

Extreme Cut-Resistant Composite Filament Fiber/Nylon Glove made with Dyneema®, PU Palms

#S13FGPU

Dyneema®
The softer strength

Superior combines three really tough materials to create one amazingly cut-resistant glove that also happens to be incredibly comfortable. When high-tech fibres are added to composite yarns, the results are impressive. Composite filament fiber on its own is brittle, and while it scores well in some aspects of cut-resistance, does not in itself stand up well to direct cut. However, when combined with Dyneema®, brittleness is no longer an issue, as the composite filament fiber is now strengthened and supported by the surrounding material. Nylon added to this composite enhances toughness and wear, while the ergonomically curved hand and finger shape of the seamless knit shell provides all-day comfort. Palms are coated with tough polyurethane for grip and added durability in wet/dry or oily conditions. CFIA approved for food handling.

Dyneema® is a registered trademark of Royal DSM N.V. | Superior is a licensed Manufacturer of DSM Dyneema®

ASTM ANSI PUNCTURE 3

ASTM ANSI CUT LEVEL 3

1240 grams of cut protection.

FEATURES

- Exceptionally cut-resistant composite yarn is a blend of composite filament fiber, Dyneema® and nylon
- Grey, polyurethane palm coating provides excellent grip in wet or oily conditions
- Fine-gauge, seamless knit provides a high degree of dexterity and flexibility
- A great choice for handling sharp steel and glass

APPLICATIONS

Sheet Metal
Metal Stamping and Fabrication
Glass Handling
Sharp Steel
Circuit Boards
Automotive
