FEATURES

- Fine but strong 18-gauge knit means great tactile dexterity
- High-strength fiber is incorporated in a way that it cannot come through to the hand for total comfort and extended glove life
- Lint-free, continuous filament yarn that is stronger than steel on an equal-weight basis
- Foam nitrile coating withstands oils and solvents, increases grip
- Factored™ to enhance longevity of coating after washing and long wear
- Made with THT® True Hand Technology®
- These gloves are treated with Ultra-Fresh to achieve 99.9% antimicrobial status

APPLICATIONS

Handling Sharp Objects
Glass Plants
Construction
Automotive Industry
Aerospace Industry
Metal Fabrication
Metal Stamping

TESTIMONIAL

DAVID H.
(ELECTRICIAN)

We have used your gloves with very good results. I have used them around a test bed installation project which required a lot of nut and bolt manipulation. Dexterity of the glove was incredible and performance was top notch. Hazards were abundant, sharp edges, hot metal, drill bit shavings and a few others. The glove protected my hands in all conditions and I continue to use them as my daily hand protection around the plant for routine maintenance tasks. This product works great for us.
