FIRST AID KITS

WASIP Ltd. a Health Canada licensed manufacturer of first aid kits and supplies offer an extensive collection of government regulated, CSA and promotional first aid kits. Our line of regulation kits come complete with all of the essential supplies required or meet Provincial, Federal, and CSA guidelines. An organization may augment the minimum requirements to account for any specific workplace hazards or that address other site-specific conditions.

PROVINCIAL & TERRITORIAL FIRST AID KITS

For those industries not federally regulated, first aid kits follow provincial or territorial regulations. Each province determines their own requirements and contents, based on the number of workers. Factors such as type of business/industry, potential for hazard and proximity to medical facilities will also be considered. Worker levels and number of kit selections vary per province.

FEDERAL FIRST AID KITS

Industries that are federally regulated, regardless of province or territory, must adhere to **Canada Occupational Health and Safety Regulations**. The following businesses and industries are more than likely a federally regulated sector:

- Most Federal Crown Corporations
- Banking
- Marine Industries
- Air Transportation
- Many First Nation Activities
- Railway and Transportation
- Canals, Pipelines, Tunnels, Bridges
- Communications
- Broadcast
- Fisheries
- Mining
- Farming

CSA FIRST AID KITS

The **Canadian Standards Association (CSA**) has developed a new standard CSA Z1220- First Aid Kits for the Workplace. The CSA Z1220 First Aid Kits in the workplace standard, will simplify regulatory requirements for organizations allowing them to conduct work more seamlessly across multiple jurisdictions in Canada without compromising health and safety protection for workers. Please check your provincial regulation guideline to confirm if your province has approved the use of CSAZ1220-First Aid Kits for the workplace.

PROMOTIONAL FIRST AID KITS

Be Prepared for Every Situation: Emergencies, disasters, roadside, vehicles, home, workplace or outdoor!

- Emergency Preparedness
- Survival/Disaster
- Roadside Assistance
- General First Aid
- Home & Office
- Events
- Recreational
- Cold & Flu
- Pets
- Real Estate
- Safety Awards
- Plus More

HEALTH CANADA COMPLIANT License # 1404

FDA REGISTRATION # 3004018264

For more information and specific kits, visit wasip.com

BUILD YOUR OWN

FOLLOW THE SIMPLE STEPS BELOW TO MAKE YOUR OWN CUSTOM KIT

MODIFY AN EXISTING KIT

1. Choose your bag or box
2. Add, Remove or Substitute Components

BUILD A BRAND NEW KIT

1. Determine Your Target Price
2. Choose Your Bag or Box
3. Select Your First Aid or Safety Components

SAFETY COMPONENTS AVAILABLE

- Automotive
- First Aid
- Heat & Light
- Personal Protection
- Emergency Preparedness
- Tools
- If you don't find what you need, please call us.

CUSTOMIZE YOUR KIT

1. Choose from Either:
   - Personalize your kit with your custom logo or important health and safety message
   - Choose from WASIP Selection of Generic Logos
2. Choose imprint method: Screen Print (bags) or 4 Colour Decal (boxes)

Let us help you with your next custom artwork project! Whether you or your clients need a custom branded product, virtual proof, or help with your next design project we will help you every step of the way!

Visit wasip.com or call us to get started!

- Heavy-duty corrugate construction withstands harsh conditions over extended periods of use
- Compact size and high tissue count makes it perfect for high traffic areas
- No maintenance required

CLEANING TOWELETTES FOR PPE

PART #	DESCRIPTION	PACKAGE
F2527760	100/Box	12 Boxes/ Case

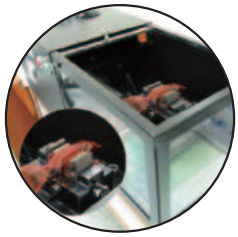

- Pre-moistened towelettes help kill germs and reduce the chance of cross-contamination
- Ideal for cleaning respirators, hard hats, headgear, resuscitators and other personal protective equipment
- Individually packaged

TESTING METHODS FOR EYE & FACE PROTECTION

MELT FLOW INDEXER

Test the quality of raw materials

ADHESION TEST

Evaluates the adhesion of coatings to lenses

HAZE TESTER

Measures the haze (light scattering) and light transmitting properties of the lenses

DEFINITION TEST

Checks the optical quality, definition,refractive power, and astigmatism power test

FALLING SAND TEST

Measures level of resistance to surface damage by fine particles

LENS ANALYZER

Advanced testing of refractive, astigmatism and optical quality

SPECTROPHOTOMETER

Examines the ultraviolet radiation and wavelengths of coating

PRISM IMBALANCE TEST

Inspects prism power and imbalance of the lenses

SCRATCH RESISTANCE

Measures the scratch resistance of the lenses

STRESS TEST

Checks for quality and stress on the lenses

HIGH VELOCITY IMPACT TEST

Determines the capability of a lens to resist impact from high velocity, low mass projectiles

HIGH MASS IMPACT TEST

Measures for the level of protection against relatively heavy objects traveling at various speeds.

HOW DO I KNOW IF MY EYEWEAR IS AN APPROVED PRODUCT?

All eye and face products are thoroughly tested to the highest impact standard and meet CAN/CSA Z94.3/ANSI Z87.1.

HOW TO CHOOSE AND USE SAFETY EYEWEAR

- Always wear protective eyewear that was specifically designed for the task at hand.
- Match your eye protection to the hazard: goggles that protect you from dust may not protect you from splashes or radiation.
- Keep your safety glasses on even when you wear other protection like a welding helmet or face shield. Flying chips or dust can get under the shield if you lift the visor.
- Inspect plastic visors or protectors for scratches that may limit vision or cracks that can weaken the structural strength.
- Make sure the equipment fits properly. It should be snug but not uncomfortable.
- Never tamper with your equipment.
- Always consult with your join health safety committee or supervisor to ensure proper choice of personal protective equipment for any job.

TRAFFIC SAFETY

HI-VIS WORKWEAR SAFETY STANDARDS

The Canadian Standards Association's High Visibility Safety Standard - CSA Z96-15 - covers two garment design elements. The **layout of reflective striping** and **luminance of background fabric** determine three Classes of safety.

BLACK QUILTED FREEZER JACKET

CLASS 1 - LOW RISK

- Offers the minimal amount of hi-vis materials
- Reflective tape over shoulders, back and encircling waist
- Background material can be any colours
- Suitable for non-complex work environments where workers are separated from vehicle traffic
- Examples: Workers directing vehicle operators to parking, workers retrieving shopping carts, warehouse operations, shipping or receiving

ORANGE TRAFFIC SAFETY VEST

CLASS 2 - MEDIUM RISK

- Offers protection for workers in more complex environments: closer proximity to vehicles or low-light work areas that require greater visibility
- Reflective tape full coverage of the upper torso including front, back, sides, encircling waist and over shoulders
- Background material must be high visibility (i.e. lime or orange)
- Examples: Utility workers, service crews, forestry workers, school crossing guards, airport handlers and ground crew and railway workers

ORANGE WINTER TRAFFIC PARKA PAIRED WITH ORANGE WINTER TRAFFIC OVERALLS

CLASS 3 - HIGH RISK

- Offers the most visibility in more complex backgrounds where low light, fast moving traffic and inclement weather are safety factors
- Reflective tape full coverage of the upper torso including front, back, sides, encircling waist and over shoulders
- A Class 2 garment combined with arm and leg bands added
- Background material must be high visibility (i.e. lime or orange)
- Hi-Vis coveralls meet this standard; safety jackets/parkas and overalls can be combined or arm/leg bands can be added to Class 2 garments
- Examples: Roadway construction workers, utility workers, survey crews, emergency responders, road assistance/courtesy crews, towing operators

SIZE CHART

Size	S	M	L	XL	2XL	3XL	4XL	5XL	6XL	7XL
XX	02	03	04	05	06	07	08	09	10	11

The last two digits of the part number represent the size of the garment.

ORDER PROCESSING
- Submit orders to sales@wasip.com
- **Order Confirmations** will be emailed within 24 hours of receiving your order. Note: If you do not receive a confirmation, please call to verify that we have received your order.
- Artwork Electronic Proofs are included with every order, including repeat orders, at no charge. Orders remain on hold pending receipt of dated & signed approval. Your signature indicates acceptance of responsibility of errors or omissions for design, accuracy and imprint colour.
- **Changes to Orders** must be received in writing.
- **Decorated Orders** will ship 5-10 days after approved proof and credit approval. Lead times are quoted based on stock. Larger orders may require additional time.
- **Blank Orders** will ship within 48 hours.

PRODUCTION TIME FOR DECORATION ARTWORK
- Please submit electronic artwork to artwork@wasip.com
- Acceptable formats are PC format: Vector EPS/AI/PDF. All text must be converted to curves/outlines. Multi-colour art must be supplied as a composite with colour breaks. Please compress large files (over 2 MB). Unless specified otherwise, decoration will be within the maximum imprint size provided on the artwork approval form.
- **4C Transfers** should be standard geometric shape.
- **4C Custom Inserts** require images with 300dpi or higher resolution.

Art alterations will be charged a minimum of $50.00 or $50.00/hr. Clean-up, touch ups, typesetting and resizing is free.
- By submitting artwork, the customer represents that the use or display of artwork will not violate any applicable laws or client restrictions.
- **PMS Colour Match** will be close as possible with no additional charge. Due to equipment, processing, inks, pigments, etc., a reasonable variation in colour between proofs and final printed product may vary slightly.

IMPRINTING CHARGES - FIRST AID KITS
- Price includes one colour imprint on one location, exceptions may apply on certain products. Additional location/colour imprint charges: Add $1.00 per colour/location/unit.
- **Set-Up Charges:** Add $50.00 per colour/location. Repeat Order Setup Charge: $30.00 per colour/location. Please supply your previous order. Imprint must remain exactly per your previous order.

IMPRINTING CHARGES - APPAREL
- **Screenprint:** Imprint Charge: Add $1.50 per colour/location/unit.
- **Embroidery:** Embroidery charges vary per logo. Please contact us.
- **4 Colour Transfer:** Please contact us for a quote.

LESS THAN MINIMUM ORDERS
- Add $40.00 plus regular set-up charges.

DROP/SHIPMENTS
- Drop shipments must meet minimum order quantities. Add $10.00 per location plus freight cost.
- Special handling requests and locations must be submitted with your PO.
- Add 1-3 days to standard lead times for drop shipments.
- For more than 10 locations, please provide an electronic file and confirm lead times
- Goods lost or damaged after leaving our facilities are the responsibility of the courier.

FREIGHT POLICY
- Orders over $2000 before applicable taxes will be prepaid to one destination in Canada and shipped the most economical way. Additional charges apply to beyond point destinations. Additional fuel surcharge may apply to freight shipments.
- Domes and mirrors are subject for exclusion of this prepaid freight policy.

ADDITIONAL CHARGES NOT INCLUDED IN WASIP'S PREPAID FREIGHT POLICY
- Beyond Point Destinations will not be covered under prepaid policy, an additional charge will be applied.
- Customers with shipping destinations without the service of a loading dock are subject to tailgate charges. Customers are financially responsible for all tailgate charges. It is not WASIP's responsibility to instruct transport carriers whether to utilize tailgate services. Minimum tailgate charges start at $50.00 and will be added to your invoice as a separate line item. It is the customer's responsibility to provide the necessary equipment at the time of delivery for unloading products.
- Heated services are available for products that have a freezing point of 0°C (32°F) or lower. Where such service is requested, transit time may vary and an additional charge will be applied to your invoice.
- WASIP will not be held responsible for pre-booked appointments that are late due to traffic, weather or unforeseen circumstances out of vendor's control.
- Additional charges apply for residential deliveries, address corrections and deliveries that require pre-booked appointments.
- Additional charges for oversized shipments, cartons including but not limited to Dangerous Goods will be invoiced under a separate line charge.

RETURNS, CANCELLATIONS & CLAIMS
- Claims must be submitted in writing within 30 days of receipt of goods.
- Return shipments will not be accepted without Return Authorization Number. RA# must be noted on the cartons and paperwork.
- A credit note will be issued if a replacement is not available.
- Due to federal government regulations and guidelines, all sales of first aid products are final and non-returnable.
- **Custom Orders:** All sales are final for decorated products. All Films and Screens remain the property of WASIP Ltd.
- The return of blank product will require a 15% restocking fee.
- Any return must be within 90 days of receipt.

WARRANTIES AND COMPLIANCES
- WASIP Ltd. ensures its products to be free from defects in materials and workmanship at the time of shipment.
- All domes and mirrors are inspected at the time of shipment. WASIP Ltd. is not financially liable for the receiving and/or installation of domes and mirrors.
- All claims must be made within 30 days from the date of the invoice. Warranty is voided on any product that has been tampered with, misused, or altered in any way.
- All first aid products are Health Canada Compliant License and FDA Registered
- All Hi-Vis Workwear is CSA/ANSI/ISEA Compliant (CSA Z96-15; ANSI/ISEA 107-2015).
