

PE7

POLYETHYLENE TAPE

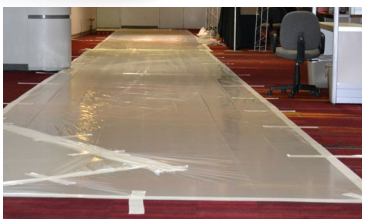

IPG®'s PE7 polyethylene tape is a high performance sealing tape manufactured to withstand the most demanding conditions. The PE7 is designed to adhere to a variety of surfaces and otherwise difficult-to-bond materials, such as dusty or similarly contaminated surfaces. It is commonly used in building and construction applications, including stucco masking, and in the remediation industry to seal bags and to secure arm/leg openings in protective clothing. PE7 is designed to remove cleanly from floors and is excellent in floor marking and cable hold-down. It's also frequently used in the marine and RV markets.

FEATURES & BENEFITS

- Conformable and flexible
- Moisture resistant
- Durable adhesion
- Hand tearable
- Clean removal and re-positionable

PRODUCT ATTRIBUTES

Style	Backing	Adhesive	Thickness	Adhesion to Steel	Tensile Strength	Elongation	Colors
			mils (mm)	oz/in (N/25mm)	lbs/in (N/25mm)	%	
PE7	PE film	Synthetic Rubber	7.5 (0.19)	85 (23.3)	23 (100.7)	75	Black, White, Yellow, Red

PRODUCT APPLICATIONS

- Patching
- Sealing
- Bundling & Wrapping
- Splicing & Surface Protection
- Exterior Paint Masking
- Wire Hold-Down
- Seaming PE Sheeting
- Closing Waste Disposal Bags
- Floor Marking
- Fork Lift Tire Repair
- Tarp Repair
- Carpet Seaming
- Crawl Space/Basement System Seaming

MARKETS

- Asbestos Abatement
- Stucco/Construction
- Exhibition & Convention Center
- Storage/Preservation
- Manufactured Housing
- Foundation Seaming
- Clean room
- General Duct
- Screen Printing
- Marine Preservation
- Agriculture Supply
- Bedbug Deterrence
- General Maintenance
- Vapor Barrier/Insulation
